

Tennis net, is mainly used in the tennis sports. It works like block fence and dividing line. Tennis net is portable, which could installed both indoor and outdoor.

There are mainly competition-type tennis nets and training-type tennis nets. The net body is made of high-strength polyethylene, wax thread, and fine-knitted nylon rope, which has good anti-aging and long life. Buttons are reserved at the corners, and the four sides are rounded, making it easy to wear the rope without effort. Thickened top edging, waterproof sunscreen tarp, thick fabric.

### **Product application**

Our portable tennis nets are widely used the schools, sports parks, sports fields, playing fields, leisure and entertainment in daily life.

### **Company advantage :**

1. Our company has the long history and rich experience in make and design of the sports net.
2. All netting, fiberglass tube, steel tube,etc. are produced within our own workshop, which could provide the good price and quality control when mass production.
3. Professional handmade team, could guarantee the delicated sewing and edge.
4. Very mature quality management system.

### **Our service**

Our company is always seeking for the long-term cooperation and business with customers. In this way, we highly focus on the quality and the feedback from customers. To assist clients to win and enlarge more markets, is what we pay attention to.
